COMPANY / SOLUTION OVERVIEW

BidTrails is Yeap Inc.'s proposal and capture management platform. It tracks every government and enterprise opportunity from notice to decision, with deadlines, documents, submitted versions, and outcomes in one private workspace per company. Teams choose who can open each opportunity, invite teaming partners into private partner rooms, see new SAM.gov opportunities matched to the company every morning, and draft responses with an AI assistant that works from the bid and its files.

Find, track, team, and write every bid from one private workspace.

CORE COMPETENCIES

Opportunity Pipeline: Deadlines, question dates, documents, submitted versions, outcomes, and reminders for every bid.

Team & Access Control: Editors, viewers, and billing contacts, each with access to all opportunities or only the ones chosen for them.

Teaming Partner Rooms: A private room per partner with messages, requests, shared files, NDA or teaming agreement acceptance, and a partner tracker.

Opportunity Matching: Daily SAM.gov notices matched by NAICS code, set-aside, place of performance, and keywords, with match reasons and AI fit notes.

AI Proposal Assistant: Drafts sections, answers questions about the requirements, and reviews drafts from the opportunity, its notes, and attached files.

Access & Accountability: YeapID single sign-on, activity history, and documents in private, encrypted storage.

PAST PERFORMANCE

Platform developed and operated by Yeap Inc.

Key-personnel experience: Deloitte, Mastercard, and Jack Henry

Key-personnel digital platform experience: 7-Eleven
